ENVELOPE IMAGER III

RENA HIGH-SPEED TABLETOP INKJET ENVELOPE IMAGING SYSTEM

Envelope Imager III

Leading The Class. The feature-laden *ENVELOPE IMAGER III* offers tremendous advantage over the competition with its exceptional price, high operating speeds, innovative concepts, and user-friendly design. Compare the stats and you'll see the choice is crystal clear.

Simply Powerful. The power of 30,000 postcards per hour or 25,000 No. 10 envelopes per hour gets the job done fast. The 3" print area from independent twin printheads gives you total freedom in envelope imaging. That's power you can actually use.

AccuTrak Vacuum Transport. This unique setup was designed for on-point registration. The AccuTrak graduated center channel system runs the length of the entire transport deck to distribute pressure evenly.

Software Savvy. Designed with the latest operating systems in mind, the *ENVELOPE IMAGER III* has a USB port, and more memory and processing power than any other tabletop printer available.

Quality built in! The Rena Systems standard of quality has led the industry for nearly two decades. Our reputation was forged with proven reliability and endurance in the field.

The Envelope Imager III's vacuum transport system and in-line design also makes it perfect for integration with high-speed digital duplicators.
