Power. Productivity. Value. Get more for less with BCC.

Professional mailing can be complicated and costly. Turnaround times shrink. Profit margins tighten. And the rules can change overnight.

Fortunately, at least one decision doesn't have to be difficult. If you can click a mouse, you can master Mail Manager 2010 — and bring a powerful, affordable solution to mailing systems of any size or specialty.

BCC solutions are designed for real-life mailing situations: rush deadlines, varied job types, operators ranging from veteran to rookie and everything in between. Mail Manager 2010 tackles those challenges with an intuitive, flexible platform that gives you total mailroom control. All at a price that puts increased profits where they belong: in your pocket.

Mail Manager 2010 delivers:

Easy-to-learn, easy-to-use design An intuitive interface reduces training time, so you can enjoy higher productivity in no time.

Optimized postal presorts Ensuring appropriate discounts for every mailing.

Streamlined database maintenance Why switch between mailing and list-management programs? 2010 lets you do more with your data.

Powerful output composition functions The Label Designer can handle elaborate merges, graphics and formatted text; and output to multiple label formats and e-mail.

Minimized production costs You'll get more work done (and handle more jobs) with the quick turnarounds made possible with 2010's true background processing.

Address correction service integration A single mouse click connects you to an array of affordable **BCC Data Services**: USPS-approved resources that can improve your list data, for better mailing efficiency and economy.

Even more optional power Enhance your 2010 system to fit your needs, with such value-added premium options as **TaskMaster**, **Enhanced Merge/Purge**, **Mail Manifesting** (for First-Class Mail®) and **MOVE Manager**. For details, visit bccsoftware.com/options.

For proven solutions, follow the leader. Choose Mail Manager 2010 from BCC Software.

Network Option

Don't Keep it to Yourself.

Boost your mailing capabilities by sharing Mail Manager 2010 within your network. Multiple workstations can be configured to share lists and enhance productivity.
