

STAMPS **NOW**[®]

Action Mailing in Liberty, MO, one of the nation's largest mailing vendors, found its inventory of presort and nonprofit dropping frequently, requiring several trips to area post offices to restock. But most area offices didn't have enough stamp stock to meet their needs. Action Mailing needed a fast and convenient way to obtain stamps.

Action Mailing wanted to continue to use stamped postage as it attracts customers' attention more than permit imprints.

Action Mailing Vice President and co-owner Dick Waggener contacted Stamp Fulfillment Services (SFS), who recommended the STAMPS **NOW** program.

"Since opening an account with SFS in 2009, stamp ordering and receiving is convenient and easy. The customer service provided at SFS is outstanding," says Waggener.

STAMPS **NOW** is the most convenient way for your business to order postage your way. With STAMPS **NOW**, you make the rules. Every STAMPS **NOW** account is customized to the specific preferences of your business.

You can order the stamps you need to complete all your mailings. Select the format, denomination, and stamp designs to meet your mailing needs. We offer all stamps that are currently on sale. From First-Class to Priority Mail price; from presorted First-Class to presorted Standard, you can find the right stamp to accompany the message to your customers.

Placing orders is easy. With the option to fax, email, phone or mail your order, simply choose the venue that suits your style. We provide a dedicated fax line and email address, ensuring that whatever method you select, your order will be keyed and begin processing right away. If you choose not to order on an "as needed" basis, you can forego the process of submitting orders altogether and have stamps shipped on a predetermined schedule.

Set up your payment method to suit your business model. Pay by ACH, FedWire, or business check. If you have multiple locations, use one account number for all with multiple shipping addresses, or set up individual accounts. STAMPS **NOW** is all about convenience, and as the **now** part of the name implies, speed.

STAMPS **NOW** is the perfect program for businesses of all sizes.

The USPS STAMPS **NOW** program is an easy and convenient way to order stamps for a local university.

The old ordering method - submitting a purchase order, waiting for a check and going to the Post Office hoping that the large coils and desired stamp design were available - was costing time and dollars. Now, with orders submitted to SFS using a dedicated email address, fax and phone number, this program is a perfect solution. SFS has excellent customer service and has designed a personalized program to fit individual business needs.

I contacted SFS in Kansas City to discuss options that I could offer one of my business customers. The SFS team is wonderful to work with. The STAMPS **NOW** program is a great option for businesses. My customer is very pleased with the process and the convenience of working with SFS.

Stamp Ordering Solutions

Whether your business has one location or one thousand, if you need an easy and convenient way to purchase and receive postage, the USPS STAMPS **NOW** Program fits the bill. Customizing the process to fit your needs is what this program is all about.

Benefits of establishing a STAMPS **NOW business account:**

- No fee to establish your account
- Choose the denomination, format, and stamp subject you want
- Presort and nonprofit stamps are available in coils of 3,000 and 10,000
- Receive a customized order form for your business
- Receive shipments on a regular schedule or replenish stock "as needed"
- Select the payment option (ACH, FedWire, check, or money order)
- Electronic file transfer is available when submitting orders
- Dedicated email address and fax line for submitting orders and requesting information
- Orders are mailed to you via First-Class or Priority Mail (USPS delivery service standard for Priority Mail is 4 -5 business days)
- Maintain your postal inventory by office; providing corporate level control and tracking
- Select the format and receipt of reconciliation reports
